

MDA Compact III

A great all-round business device with built-in GPS navigation.

- Access company email with BlackBerry Connect or Microsoft Direct Push email
- Full PDA functionality plus built-in GPS sat nav with CoPilot® Live 6
- Windows® Mobile 5.0 including mobile versions of Word, Excel, PowerPoint and Outlook plus PDF viewer
- Large touch screen for easy operation
- Good battery life and robust design for users out on the road all day
- Quad-band for use around the world
- Bluetooth™ for hands-free and PC connectivity
- Illustrate your emails using the 2 mega-pixel camera with digital zoom and video capture

The MDA Compact III keeps you in touch while you're on the move – and helps you get to your destination. It's the first T-Mobile MDA with a built-in GPS receiver with CoPilot Live 6 for your own advanced sat nav system, complete with on-screen and audible directions, with the option of traffic alerts. The touch-screen and jog wheel make it easy for you to enter a destination, by post code or place name. Then away you go.

Plus you stay productive with mobile office tools, including Windows Mobile 5.0 versions of Word, Excel, PowerPoint, Outlook and Internet Explorer.

Who will use it?

Any professional who spends a lot of time on the road will appreciate this device, including managers, sales people, service teams and delivery workers. Reduced journey times and mobile working tools can do wonders for your productivity.

Why buy?

In addition to the exciting new GPS capability, users can view and edit both Word and Excel documents as well as view PowerPoint and PDF files. With just one touch of the screen, the MDA Compact III provides fast access to phone, email and internet – making it the perfect travelling companion for business.
